

DIRECTIONS FOR USE

Application:

Proactin^{EX} is suitable for application on all cool or warm season turfgrasses including golf courses, home lawns, sports fields and sod farms, as well as ornamentals, trees and shrubs to supplement the nutritional needs of the crop or as required prior to any increase in environmental intensity.

Application can be made via spray equipment or by injecting through an irrigation system.

Turf Use Rate:

Apply 16-32 oz / A every 28 days. Applications may be split into 7, 14, or 21 day intervals.

Sod Use Rate:

Use 32 oz / A at establishment and prior to harvest. Monthly applications should be made according to the turf directions above.

Ornamental Use Rate:

1.5 oz / 2 gallons as a drench pre- and post transplant. Use ¾ oz / 2 gallons as a drench per month for maintenance applications.

TANK MIXING

Proactin^{EX} may be used alone or mixed with most other fertilizers or turf chemicals. For best results, tank mix with TriCure AD Soil Surfactant.

PRECAUTIONARY STATEMENTS

Wash hands with soap and water before meals and after work.

Use this product in accordance with good agronomic practices, which include utilizing

proven spray equipment set for proper coverage. Applications should be made at temperature levels and when other environmental conditions in your area are such that your experience indicates the application will be compatible and will accomplish the desired results.

IN CASE OF CONTACT

- EYES: If eye exposure occurs, wash with water for at least 15 minutes. Call a physician.
- SKIN: Eye and skin irritant. Wash skin and clothing thoroughly with water after exposure.
- INGESTION: Contact physician or poison-control center.

STORAGE AND DISPOSAL

Store in the original container tightly closed, in a dry place. Store away from children, pets, livestock and foodstuffs. Dispose of unused contents according to RCRA and all applicable national and local government regulations. Containers may be disposed of after thorough rinsing and offered for recycling or reconditioning or disposed of according to approved national and local regulations. Do not reuse empty containers.

WARRANTY: Seller warrants that this material is suitable for the purpose stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any contrary to such directions. Seller makes no other expressed or implied warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the materials as to which a claim is made.

Information regarding the contents and levels of metals in this product is available on the internet at: aapfco.org/metals.htm.

Proactin^{EX} is intended to supplement a regular fertilization program and may not, by itself, provide all of the nitrogen required by turf and ornamentals.
